Top Skills

• Music • Authoring • Graphic Design • Linguistics (Spanish, Latin, German)

Certifications and Technical Experience

- Web Design
- Manufacturing Experience in an FDA-Regulated Facility
- EPA Section 609 MVAC (Refrigerant Transition and Recovery)

Summary

I am a musician, author, graphic artist, and linguist. I am creative by nature and entrepreneurial by desire. I intend to make the arts and philanthropy a dominant force in my life.

Experience

BioFire Diagnostics, LLC Manufacturing Technician II

June 2017 - March 2019 (1 year 10 months)

Freelance Musician & Manager 2006 - Present (14 years)

I teach and tutor privately. My students have ranged from six years old to over eighty years old, beginners to already accomplished musicians.

I teach piano, trumpet, organ, composition, arrangement, production, and transcription. I also provide these services myself in the studio, in live performances, and through scoring and film soundtrack work. I have written, produced, and been a major partner in seven full-length albums and have been featured on many more. I have been a part of several domestic and foreign musical tours as both solo artist and ensemble member. My styles include jazz, rock, pop, blues, gospel, hip-hop, reggae, and classical.

Education

University of Utah Coding Bootcamp—2020

Universal Technical Institute—Associate of Occupational Science

Brigham Young University—Bachelor of Arts

Highland High School High School—Honors Diploma
